

TYAN Announces S8225 Workstation Motherboard with Support for AMD Opteron™ 4100 Series Processors

New Levels of Power-Efficient Performance for Graphics Workstation and GPU Computing

Related Products: [S8225AGM4NRF](#), [S8225WAGM4NRF](#)

Fremont, California – January, 17th, 2011 - TYAN, an industry-leading server platform manufacturer, and a subsidiary of MiTAC International Corp., announces the S8225 workstation motherboard. With support for two six-core AMD Opteron™ 4100 series processors and up to four double-wide PCI-E 2.0 GPGPU compute accelerators, the S8225 is ideal for graphics workstation and personal supercomputing applications.

“The S8225 workstation motherboard enables price sensitive customers to experience GPU computing performance,” stated TYAN Director of Product Marketing, Kevin Hart. “The AMD Opteron™ 4100 series processors provide improved power efficiency at a lower cost.”

In addition to four double-wide PCI-E 2.0 x16 slots, the S8225 features four 1-Gbit Ethernet ports, integrated support for IPMI 2.0, and an optional LSI 2008 SAS controller. The S8225 also provides integrated audio, IEEE 1394a headers, and TPM 1.2 support in an EATX 12” x13” form factor.

Model	Description
S8225AGM4NRF	Dual Opteron™ 4100 series, 4 GPU, EATX
S8225WAGM4NRF	Dual Opteron™ 4100 series, 4 GPU, EATX, LSI 2008 SAS

The S8225 is available now through TYAN distributors worldwide. OEM pricing is available on request.

AMD and Opteron are trademarks of Advanced Micro Devices, Inc.

About MiTAC

MiTAC Group (TSE:2315) operating IDMS (Innovation, Design, Manufacture, Service) business approaches for offering consolidate service to customers and users. MiTAC Groups is consisted of four important business unit, including CSBU (Consumer system Biz Unit), ESBU (Enterprise system Biz Unit), MBU (Mobil Communication Devices Biz Unit) and TBU (TYAN Business Unit). TYAN officially merged by MiTAC International Corporation in 2007 and has become one of the core business units of MiTAC, named TBU (TYAN Business Unit). MiTAC is heading to server platforms and Storage device industry with emerging MiTAC strength in IT industry with R&D, engineering, manufacturing, supplying chain, RMA and TYAN strength in R&D in high end server territory.

About TYAN

TYAN, as a leading server brand under MiTAC Group, designs, manufactures and markets advanced x86 and x86-64 server/workstation board technology platforms and server solution products. Its products are sold to OEMs, VARs, System Integrators, and Resellers worldwide for a wide range of applications. TYAN enables its customers to be technology leaders by providing scalable, highly-integrated, reliable products for a wide range of applications such as server appliances and solutions for high-performance computing, and server/workstation usage in markets such as CAD, DCC, E&P and HPC. For more information, visit MiTAC website at <http://www.mitac.com> or TYAN brand website at <http://www.tyan.com>
