

FRAUSCHER PRESS INFO

A bestseller is 100 - Frauscher 686 LIDO

Gmunden, May 10th, 2012:

A short while ago the hundredth 686 LIDO left Frauscher shipyard. It was a special event both for the shipyard and new owner, which they will remember for a long time. In keeping with the dynamics of the motor yacht and the festive occasion the 686 LIDO was produced in the original red Ferrari colour.

Since its introduction the 686 LIDO had a highly polarising effect among motor boat enthusiasts. It was either madly loved or not. But nobody was left cold by the bold boat model. A little bit more than six years later the 686 LIDO is the best sold yacht from Frauscher shipyard.

It's hard to say exactly why. It is probably because no other boat model combines its special individual features into a unique whole better: fast gliding, agile response, high turning speed and impassionate design merge into a purebred high-end tender which is simply captivating from the very first moment. With its flexible colour design the 686 LIDO represents exactly the spirit of our time.
