

Oerlikon Saurer

Oerlikon Saurer will present news from the twisting world at Inlegmash 2010

Arbon, 8. March 2010 – Oerlikon Saurer will show its presence at the Oerlikon Textile booth at the Inlegmash 2010. The booth team of Allma and Volkmann product lines is looking forward to welcoming their visitors in Moscow from 20 to 22 April 2010. They will be informed about the latest news on products, technologies and services at our information booth FC03 in hall Forum.

Oerlikon Saurer enjoys a high reputation in the Russian market

As supplier of top-performing twisting and cabling systems, Oerlikon Saurer with its product lines Allma and Volkmann has won an important position in the Russian and Eastern European markets in recent years.

Both in the clothing and technical textiles sector, Oerlikon Saurer products are first choice, as both product lines are among the top in research and development and also with regard to product quality worldwide.

At the Inlegmash 2010, Oerlikon Saurer will inform the trade visitors about the latest developments of their product range and give a survey over their extensive range of services.

Allma TCS and Allma CC3 offer cutting-edge technology for optimal technical yarns

The Allma TCS (TechnoCorder) is the leading machine in the market for all kinds of technical yarns made from single and multiple yarns. The Allma TCS can be optionally supplied with precision winding for perfect twist packages or with assembly-winding unit for complex technical yarns.

Allma CC3 (CableCorder) is the high-performance cabling and twisting machine for cabling 2-ply tire cord as well as twisting single yarns or balanced and unbalanced 3-ply constructions.

Page 2 **Volkmann is a synonym for progress, quality and efficiency**

The innovative ring twisting machine Volkmann GT (GlassTwister) features a modern and ergonomic design and high functionality, making it highly suitable for twisting single and multiple yarns for finest glass yarns with a perfect package build. This also applies to basalt fibres, featuring continuous filament yarns with a long tradition on the Russian and Eastern European markets.

While the Volkmann CC (CarpetCabler) established itself on the BCF market for carpet yarns, the Volkmann CT (CompactTwister) with its enhanced servo traversing unit offers optimum twist quality, maximum productivity and high flexibility with regard to material and fineness for processing twisted yarns for the quality-minded apparel industry.

Oerlikon Saurer secures the future of its customers

With state-of-the-art products and a comprehensive range of services, Oerlikon Saurer offers its customers ideal production and market conditions enabling them to grow in line with the dynamic textile markets in Russia and Eastern Europe now and in the future.

About Oerlikon

Oerlikon (SWX: OERL) is one of the world's leading high-tech industrial groups specializing in machine and plant engineering. The company is a provider of innovative industrial solutions and cutting-edge technologies for textile manufacturing, thin-film coating, drive, precision, vacuum and solar energy systems. A Swiss company with a tradition going back 100 years, Oerlikon is a global player with around 16,000 employees at 180 locations in 37 countries and sales of CHF 4.8 billion in 2008. The company ranks either first or second in the respective global markets.
