

Press release

January 2013

KETTERER CONTINENTAL at the CMT Stuttgart

Ketterer Spezialfahrzeuge AG presents its unique range of premium motor homes at the CMT in Stuttgart, hall 1 gallery, stand 1Z302 from 12 to 20 January 2013. On show will be the leading models from the KETTERER CONTINENTAL series: the KETTERER CONTINENTAL 11250 with an enlarged integrated garage accommodating a Smart, MINI or Audi A1, and the extraordinarily spacious KETTERER CONTINENTAL 12000. For its outstandingly creative designs, the company has been honoured already for the second consecutive time in 2012 by receiving the renowned “caravaning design award: innovations for new mobility” in cooperation with red dot projects.

Touring in the spacious KETTERER premium trucks, you experience a “new art of travelling”. The KETTERER CONTINENTAL 11250 measures 11.25 meters in length and offers a luxuriously furnished separate living area. It can be extended via two KETTERER POP-OUTs set in a row. In addition, you can take a small car on board in order to be always mobile on site. The intelligent storage concept easily houses a Smart or – in a newly designed version – a Mini or Audi A1.

Even more flexible options are offered by the KETTERER CONTINENTAL 12000. It lets you combine different KETTERER POP OUTs in various depths – for a living space tailored to individual requirements. Different constellations of full- and half-depth pop-outs are available, depending on preference: if one likes to travel in stages and therefore wants to be able to use the facilities anytime, or if one rather stays at one destination and appreciates a voluminous room concept on site. The truck can also accommodate a scooter or, alternatively, a MINI or Audis A1.

Building on the extremely reliable technology of leading truck makers, the KETTERER CONTINENTAL series combines an extraordinarily spacious concept, masterly executed craftsmanship and relaxed driving pleasure as well as exemplary safety and optimal service – following the company motto “Enjoy your KETTERER truck, we look after the details”.

Also at CMT: The golf promotion truck built by our affiliate company SCHULER Fahrzeugbau GmbH for HUGO BOSS AG, on show at the special exhibition “Golf & WellnessTravel” from 17 to 20 January 2013.
