**Infratek AG exhibits at Sindex in Bern (CH)**  
**Hall 1.1, Booth A17**

Uetikon am See, August 9, 2016 – For the first time, Infratek AG participates at Sindex. The Swiss exhibition for technology takes place in Bern from September 6th until September 8th 2016.

Infratek presents Power Analyzers and Battery test instruments from the latest series 108A up to the well-established 106A Power Analyzer. The instruments are versatile, user friendly and easy to handle. All types of instruments are widely used where precise measurement results or energy efficiency is required.

Infratek AG, founded 1979, has been developing power measurement tools for over 30 years and is a fully family-owned company. Infratek has a global distributor network at the disposal and also sells directly.
