

2010 Eurocom Annual Technology Confidence Survey

conducted by

Eurocom Worldwide
– the Global PR Network

March 2010

Local PR Experts - Global Expertise

Survey Methodology

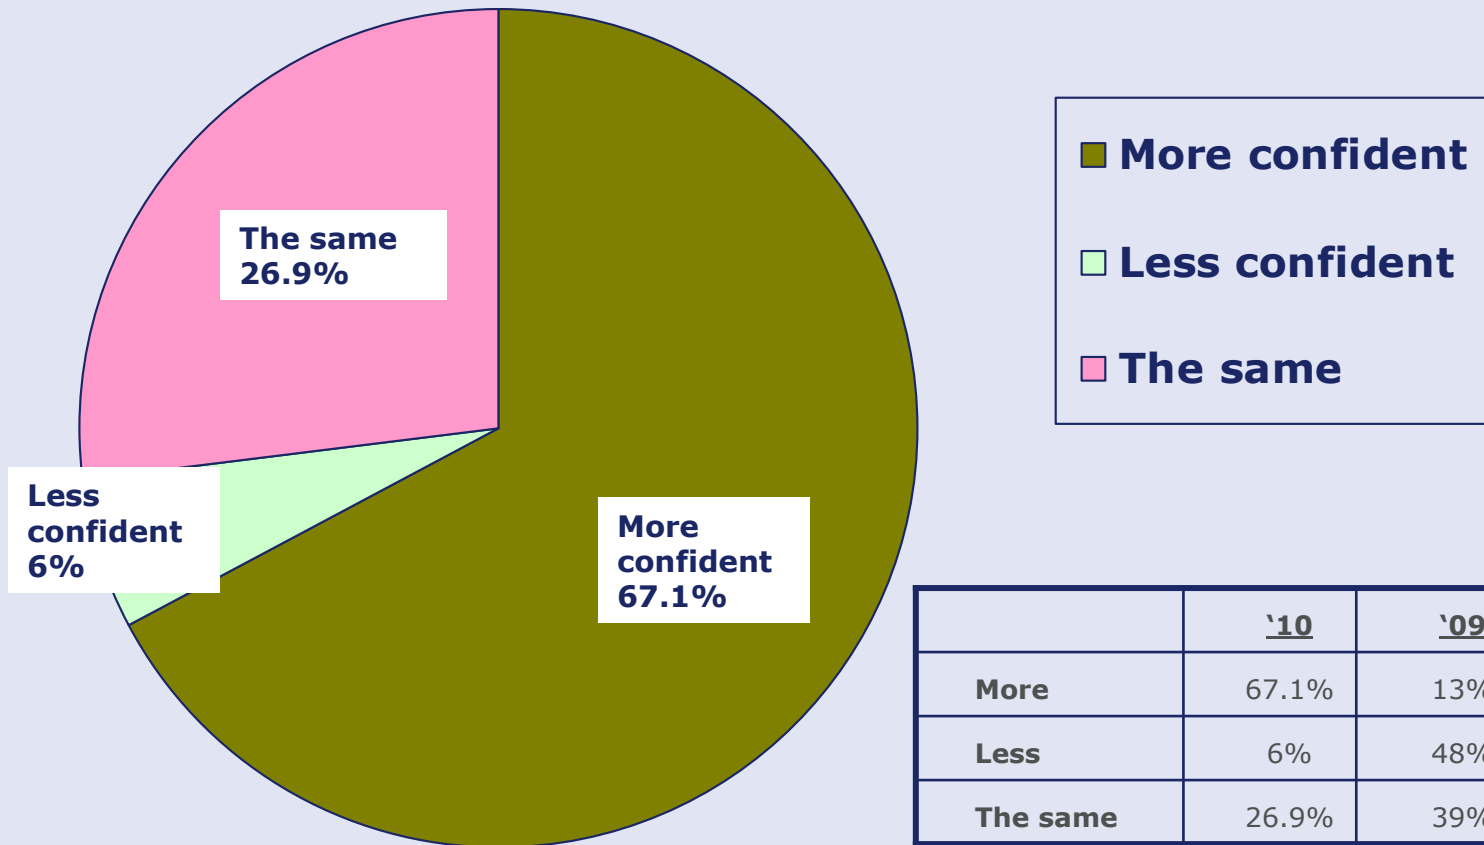

Survey Methodology

Each year Eurocom Worldwide surveys technology business leaders and senior industry executives around the globe, measuring the sentiments and confidence levels of professionals in the sector. This year 286 respondents participated, the majority from the EMEA region. The study was conducted via the Internet and field work was carried out in January and February of 2010. We would like to thank all those who participated.
