Press Release

Designed for Rigorous Industrial Applications

Machine Vision Laser with an M12 Stainless Steel Thread

Stainless steel housing with an M12 thread and an M12 connector: These standards and the demand for high quality make the LASER COMPONENTS' FLEXPOINT® MV12 lasers the perfect choice for sensor applications in industrial environments.

The MV12 laser modules have excellent line characteristics that are tailored to meet the demands of image processing. For easy application the operating voltage range of the line lasers is between 4.5 and 30 VDC.

Trade Shows

PHOTONEX 2011, October 18-19, 2011, Ricoh Arena, Coventry, UK, **Booth C20**
Vision 2011, November 08-10, 2011, New Trade Fair Center Stuttgart, D, **Booth 4D13**
BiOS 2012, January 21-22, 2012, The Moscone Center, San Francisco, **South Hall – Booth 8517**
Photonics West 2012, Jan. 24-26, 2012, Moscone Center, San Francisco **South Hall – Booth 517**
Analytica 2012, April, 17-20, 2012, Munich International Trade Fairs, **Booth A2.400A**

The Company

LASER COMPONENTS is specialized in the development, manufacture, and sale of components and services for the laser and opto-electronics industries. With sales offices in four different countries, the company has served its customers since 1982. In-house production at six locations in Germany, Canada, and the USA began in 1986 and is meanwhile responsible for about half of its turnover. Currently, the family-run business employs more than 130 people worldwide.
