# Press release 9/2008

**YOUR round parts DESERVE ... OUR all-AROUND-printing**

**High-speed tampon printing line for cylindrical parts**

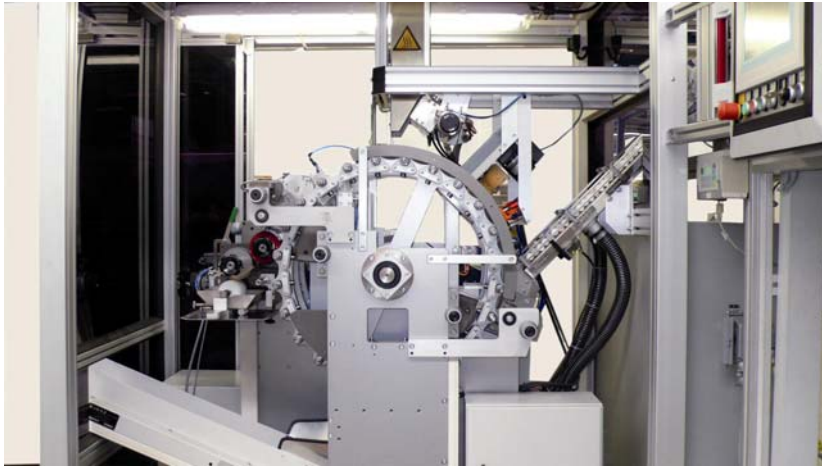

**„H•S•C“-High Speed Circular**

The time has come. TAMPOPRINT® has developed the fastest 1-colour printing machine of the world - "H•S•C"-High Speed Circular, patent pending / DGM (German Utility Patent)! Innovation & Know-how – resulting in an unbeatable combination from TAMPOPRINT® Ag: A completely new rotary tampon printing process with endless flow printing principle, with an exceeding output of 20.- 40.000 parts / h, printed in 1 colour with flawless finest texts and graphics on the circumference. Basically: The smaller the diameter the higher the output / h. Cylindrical parts with a diameter of 2 mm - 30 mm. Thanks to the modular machine concept of the "H•S•C"-High Speed Circular many different products can be decorated with the all-around printing. Some application examples are: dialysis tubes, syringes, batteries, refills for ballpoint pens, fiber pencil tubes, tablet boxes, glass tubes, vials, ink cartridges tubes, safety fuses, small aluminium boxes for tablets, tablet tubes, cylinder made of plastics / metal. The "H•S•C"-High Speed Circular will be presented to the world public for the first time at the "Fakuma 2008" in Friedrichshafen (Lake Constance) / Germany, Hall A1, Stand 1302 from October 14-18, 2008, where it can be seen in production. Visit us at the show!

Trademarks of TAMPOPRINT® AG: DMD®, ALFALAS®, TAMPOPRINT®
