

PRESS RELEASE

New Power Partnership for the European Market: AMS Technologies to represent Electroipryamitel's Power Semiconductors across Europe

Martinsried, April 24, 2012 – AMS Technologies, a pan European solution provider for Power Technologies and Thermal Management and Electroipryamitel, leading developer and manufacturer of IGBTs, SFRD modules and Diode-Thyristors announce a pan European partnership to provide local design support for next generation Power Electronics applications.

Under the partnership AMS Technologies will be distributing Electroipryamitel's entire portfolio of Power Semiconductors from its offices based in Germany, Sweden, the UK, France, Italy and Spain.

'Electroipryamitel's long history innovating Power Semiconductors will be of great value to our European customer base' commented Jan Meise, CEO of AMS Technologies. 'Combining this experience with our knowledge in Thermal Management will

result in innovative solutions for the most demanding applications.'

'AMS Technologies is the right consulting partner for our customers' said Chibirkin Vladimir Vasiljevich, General Director of Electroipryamitel. 'We are looking forward to a long and fruitful partnership to grow our mutual business.'

Both, AMS Technologies and Electroipryamitel will exhibit at PCIM 2012, 8-10 May 2012, Nuremberg, Germany in hall 12, where they will exhibit the latest developments in the field of power semiconductors and cooling. The AMS Technologies team and our representatives look forward to your visit.

AMS Technologies – where technologies meet solutions

AMS Technologies is Europe's leading solution provider and distributor for Optical, Power and Thermal Management Technologies, with almost 30 years of experience to date and currently serving more than 1000 European customers. AMS Technologies has been delivering solutions into a variety of high-tech markets, including renewable energies, medical, defence & aerospace, telecom & datacom, research & scientific and various other industrial segments. Our customer base consists of Europe's largest leading technology corporations, a network of universities and research institutes as well as the most promising start-ups.

We thrive by working in a 'customer first' environment. Our pan-European customers are serviced from a network of local offices in Germany, the UK, France, Italy, Spain and Norway, with a focussed operations and logistics centre located in Munich, Germany.
