Android is Talking Business
*MobiSystems OfficeSuite for Android now available at
AndroidGear.com*

Munich, September 10, 2009 – With the launch of Android in late 2008, a brand-new and powerful OS dares the established smartphone platforms such as Windows Mobile®, BlackBerry RIM® and SymbianOS®. One of the biggest challenges for a newly launched OS is to catch up with the vast variety of applications already available for competing platforms. The Android community today takes a big step towards business compatibility with the release of MobiSystems OfficeSuite 1.0 for Android, now available at AndroidGear.com. OfficeSuite is currently the most complete document viewer application for Android, enabling users to open native DOC, DOCX, TXT, XLS, XLSX, CSV, PPT, PPTX, PPS, PPSX and PDF files and attachments.

OfficeSuite for Android is available at AndroidGear.com, PocketGear's software portal for the Android platform. A trial-version enables users to test the app before purchasing. The top-selling OfficeSuite versions for SymbianOS® and Palm OS® can be found at other PocketGear storefronts including SymbianGear.com and PalmGear.com

The fully-featured OfficeSuite program with viewing and editing features will be available this fall. Any customer that purchases a license key for OfficeSuite Viewer will be entitled to a special discount for the complete OfficeSuite.

AndroidGear.com offers a wide range of freeware and commercial applications for Android-powered smartphones based on Google's open source operating system.

About PocketGear, Inc.

PocketGear is a leading provider of smartphone content distribution and mobile application storefront solutions for mobile Internet devices across platforms. PocketGear provides a carrier-grade platform connecting millions of people around the world with applications and digital content from a network of more than 30,000 developers. PocketGear powers smartphone application distribution for direct channels including PocketGear.com, SymbianGear.com, PalmGear.com, Smartphone.net, and Mobile2Day.de and for more than 15 partners including Samsung, Palm, T-Online, and AOL. Since its inception, PocketGear has powered more than 100 million downloads to smartphones and mobile devices from a catalog of more than 70,000 applications. Acquired from Motricity in 2008 by Motricity co-founder Jud Bowman, PocketGear is backed by leading venture capital firms Noro-Moseley Partners and Wakefield Group. PocketGear is headquartered in Durham, NC with offices in Munich, Germany. For more information, please visit <http://corp.pocketgear.com>.
