Our Partners

ofi Austrian Research Institute for Chemistry and Technology

ofi The ofi is one of the largest testing and research institutes in Austria and thus plays an important role in the innovation system. Together with international large-scale enterprises and numerous SMEs it develops new products and applications to provide clients with assurance about product quality. Its main topics are construction, bioenergy, plastic products, pharmaceuticals, surface technology and certification.

University of Applied Sciences Wiener Neustadt

FH **Wiener Neustadt** The University of Applied Sciences Wiener Neustadt – established in 1994 – is the first of its kind in Austria. Since its founding days, the mission has been to combine academic studies with a practically orientated education that is specifically suited to the requirements of modern business and technology. Currently, the university operates four faculties: Business, Engineering, Health Studies, Security and Sports.

SUSTAINABLE FOOD PACKAGING INNOVATIONS AND TRENDS

Tuesday, 21 June 2011, 1pm

SUSTAINABLE FOOD PACKAGING INNOVATIONS AND TRENDS

Tuesday, 21 June 2011, 1pm

The Cofresco Forum is proud to welcome packaging experts from all over Europe to the 7th Round Table. This year's event in Vienna will focus on one of the most urgent topics in the food packaging industry: sustainability. Scientists as well as industry experts will be reporting on current developments in practice and research that will allow conclusions for consumer applications. Their talks will deal with storage and preservation as well as preparation and waste. The Round Table will seek answers to the question of how food can be effectively prevented from perishing in order to use it in the most sustainable way. The topics include new technologies in active and intelligent packaging, challenges in the production of bioplastics and new methods in measuring the migration of packaging materials. A talk on the CO₂ emissions of food packaging will round off the event.

A guided tour through the laboratory of the Austrian Research Institute for Chemistry and Technology in Vienna will provide insights into the everyday practice of package testing, sensors, and analytics.

About the Cofresco Forum

Cofresco Frischhalteprodukte GmbH & Co. KG founded the Cofresco Forum in 2010 as the successor to the Cofresco Institute. Its aim is to drive the international exchange of knowledge between scientists and thus support research in the field of household packaging. The website www.cofresco-forum.com serves as a key instrument of the Cofresco Forum and aims to initiate further interesting and individual cooperation projects. It is not only a research tool for experts in the field of packaging and food science, but also offers them an opportunity to present their work to a wider audience.

About Cofresco

Founded in 1996, Cofresco Frischhalteprodukte GmbH & Co. KG is a joint venture between the German Melitta Group and the US company S.C. Johnson. As the majority shareholder with a stake of 65 percent, Melitta controls the company's business operations. The company specializes in the production of household products for the freezing, fresh-keeping, storage and disposal of food.

Agenda

Sustainable Food Packaging Innovations and Trends

- 1.00 pm**
Registration and coffee,
Franz-Grill-Straße
- 1.30 pm**
Opening and introduction
- 2.00 pm**
SMART: Active and Intelligent Packaging
Prof. Dr. Thomas Schalkhammer, Attophotonics Biosciences GmbH
- 2.30 pm**
**Biobased Packaging:
Challenges in the Production of Bioplastics**
Johann Zimmermann, NaKu e.U.,
and Michael Pitzl, ofi
- 3.00 pm**
**Carbon Footprint of Packaging:
Measurements, Specifications, and Inaccuracies**
Gérald Lefebvre, Consultant
- 3.30 pm**
**Migration of Packaging Materials:
Legal Requirements and Scientific Methods
of Measurement**
Dr. Johannes Bergmair, ofi
- 4.00 pm**
Break and shuttle service to the ofi laboratory,
Brehmstraße
- 4.30 pm**
Guided Tour,
ofi laboratory
- 5.30 pm**
Buffet and get-together

ECO6S

Yes, I will attend the 7th Cofresco Forum Round Table 2011.

No, I will not attend the 7th Cofresco Forum Round Table 2011.
