Barcelona, Spain, Oct. 7, 2015 – HP today announced the **HP Pavilion Gaming** notebook to deliver intense design, graphics, power and performance gamers crave in an affordable Windows 10⁽¹⁾ gaming PC.

“Serious gamers want high end performance that delivers truly amazing experiences in a package with edgy designs but at a price point that does not break the bank,” said Louis Perrin, director, consumer products, Printing and Personal Systems Group, HP EMEA. “The HP Pavilion Gaming notebook delivers high-end NVIDIA graphics, high-resolution displays and the latest Intel processors for a remarkable experience in a strikingly designed notebook.”

Starting with the 15.6-inch (39.62cm) HP Pavilion, HP added aggressive color and boosted the hardware to offer the processing power and great graphics customers want in an affordable and portable gaming PC. The HP Pavilion Gaming notebook is powered by the NVIDIA® GeForce® GTX 950M and 6th Gen Intel® Core™ i5 or i7 processors ⁽²⁾ for high performance with stunning graphics. Customers can expect the speed they need even with the most memory intensive applications with up to 16 GB of system memory.⁽³⁾ With up to 2 TB of hard drive (HD),⁽⁴⁾ up to 1 TB of hybrid hard disk drive (HDD)⁽⁴⁾ or dual storage with 2 TB HD⁽³⁾ and 128 GB solid-state-drive (SSD).⁽⁴⁾ customers will be able to strike the perfect balance of fast load times and plenty of storage space for their games.

For crisp, clear gaming experiences, the HP Pavilion Gaming notebook offers a 15.6 inch diagonal high-definition⁽⁵⁾ (HD) or Full HD⁽⁶⁾ IPS display with optional touch. At 28.8 millimeters and 5.46 pounds (2.48kg) ⁽⁷⁾, the HP Pavilion Gaming notebook is portable with up to 8.15 hours of battery life with HD display.⁽⁸⁾ The backlit keyboard glows bright green with a fierce gradient reptilian pattern on the keyboard deck. Optional Intel® RealSense™ technology ⁽⁹⁾ provides depth sensing capabilities for both gaming and video, and paired with Windows Hello⁽¹⁰⁾ allows customers to conveniently and securely log in to the device.

Customers will have plenty of ports for their gaming attachments including two USB 3.0 ports – one with HP Sleep and Charge, one USB 2.0 port, one HDMI port to drive an external display and an SD Card reader to expand storage. The optical disk drive gives customers the flexibility to load game collections. The RJ45 port gives customers the flexibility to hardware into a network for optimal connectivity. Audio tuned by B&O Play enhances the gaming experience with great sound on the dual speakers.

With Windows 10⁽¹⁾ the HP Pavilion Gaming notebook will deliver great experiences on games built for DirectX 12, bringing new levels of efficient performance and new visual effects to gamers. Using Game Streaming in the Xbox app in Windows 10, customers never again have to fight for the TV. Game Streaming allows customers to play their Xbox One games on their HP Pavilion Gaming notebook, anywhere in the house.

Pricing and Availability ⁽¹¹⁾

The HP Pavilion Gaming notebook is expected to be available in EMEA in October starting at €799.

About HP

HP creates new possibilities for technology to have a meaningful impact on people, businesses, governments and society. With the broadest technology portfolio spanning printing, personal systems, software, services and IT infrastructure, HP delivers solutions for customers' most complex challenges in every region of the world. More information about HP (NYSE: HPQ) is available at <http://www.hp.com>.

- (1) Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.
- (2) Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing system required. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
- (3) Part of the total system memory (RAM) is used for graphics/video performance. System memory dedicated to graphics/video performance is not available for other use by other programs.
- (4) For storage, TB = 1 trillion bytes. Actual formatted capacity is less. Up to 35GB of hard drive is reserved for system recovery software.
- (5) High-definition (HD) content required to view HD images.
- (6) Full high-definition (FHD) content required to view FHD images.
- (7) Actual weight will vary by configuration.
- (8) Windows 10/ MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See www.bapco.com for additional details.

- (9) Features may require software or other 3rd party applications to provide the described functionality. Some or all of the features may be unavailable or under development in your market. See <http://www.intel.com/realsense> for more information
- (10) Some features including Windows Hello require more advanced hardware. See www.hp.com/go/windows10upgrade and www.windows.com/windows10upgrade. Pre-release product shown, subject to change. Apps sold separately.
- (11) Estimated street prices. Actual prices may vary.
