

LATEST INNOVATION

THE INLINE BOARD TEST SYSTEM
LEON INLINE TINY

**Flexible and configurable Inline Board - Component Test System
for ICT/FCT/BSCAN**

- Unlimited variants and different contacting height levels for **ICT-FCT**
- Automated parallel testing (max. 16 embedded PCB testers in parallel)
- SMEMA interface
- High volume test with **up to 1500 test points**
- Fixture kits from manual adapter can be reused, saves integration cost, time and risk
- Automatically adjustable conveyor width

Applications

ICT, FCT, Boundary Scan, Insystem Programming
