Terminal Post Range offer Touchproof Protection

The CLIFF range of terminals offer a high level of safety designed for a number of different applications including amplifiers, loudspeakers, home-theatre and high current professional audio, instrumentation.

The range includes not only single posts but also dual and quad versions as well as pc board versions in a number of variations.

Designed for a maximum current of 30A the terminal posts are available with either gold plating or nickel and in a variety of colours as well as being UL recognised.
