## Press release

## Test in Jerez

Jerez de la Frontera, 11<sup>th</sup> February 2010 – The second day of testing in Jerez was held in lot better weather conditions as the track dried quickly in the morning. With Kamui Kobayashi being one of the drivers completing in excess of 100 laps and setting the quickest lap time of the day on his final run, the BMW Sauber F1 Team enjoyed a busy and productive day of testing.

**Weather** Dry track, air 12-18 °C, track 12-26 °C

**Circuit length** 4.428 km

**Driver** Kamui Kobayashi (JP)

**Chassis / engine** BMW Sauber C29-01 / Ferrari

**Kilometres today** 456.084 km (103 laps)

**Fastest lap** 1:19.950 min

**Giampaolo Dall'Ara (Head of Track Engineering)** "It was a good day of testing as we managed to complete our programme. In the morning we did some aero tests. After the lunch break we concentrated on set-up and tyre evaluation. For most of the day we were running with a high fuel load prior to a run with a lighter car before the end of the session. For tomorrow the weather forecast is not really promising, but we will cope with what we get."

**What comes next** For tomorrow and Saturday Pedro de la Rosa will be on duty at the wheel of the BMW Sauber C29 Ferrari.
