

Nicely done!

Wunderlich is optimising the K 1600 seat

BMW motorcycle accessory specialist Wunderlich promises unmatched seating comfort for the K 1600 GT/ GTL. The team from Sinzig is replacing the structure of the original seat with its own intensively developed foam core and innovative gel insert. Together with the gel insert, the overhauled contour of the seat with an improved concave profile guarantees relief for the coccyx and optimises weight distribution across the entire seat.

The grippy and sweat-reducing cover material combined with pin-tucks in Alcantara promises a perfect hold and looks very refined thanks to recessed cut seams. Glued and welded seams provide a 100% seal.

Wunderlich offers the ERGO seat as part of an exchange process and the seat hull and seat heating from the original are retained. The seat height matches the series seat. Both the rider and passenger seats can be delivered for €399.- each. The ERGO seats are entirely Made in Germany and come with a five-year guarantee.
