

MEYER BURGER

Press Release
Thun, 20 March 2017

Continued success for MB PERC: Meyer Burger awarded further contract for around CHF 15 million from an existing customer for the industry-leading MB PERC cell upgrade technology.

The demand for Meyer Burger's MB PERC cell upgrade technology continues with a contract from an existing Asian customer for the delivery, installation and commissioning of the MAiA 2.1 upgrade cell coating platform. The contract volume is around CHF 15 million.

Meyer Burger Technology Ltd (SIX Swiss Exchange: MBTN) today announced the successful conclusion of a further important contract with an existing Asian customer for MB PERC on the MAiA 2.1 technology platform. This contract further confirms the strong demand for cell upgrade technology and Meyer Burger's position as market leader for PERC. With the MAiA technology platform, the customer plans to increase its production volume of high efficiency cells. The contract volume is around CHF 15 million. Delivery and commissioning of the equipment is scheduled to begin in the second quarter of 2017.

MEYER BURGER

About Meyer Burger Technology Ltd

www.meyerburger.com

Meyer Burger is a leading global technology company specialising on innovative systems and processes based on semiconductor technologies. The company's focus is on photovoltaics (solar industry) while its competencies and technologies also cover important areas of the semiconductor and the optoelectronic industries as well as other selected high-end markets based on semiconductor materials. Over the past ten years, Meyer Burger has risen to the forefront of the photovoltaic market and established itself as an international premium brand by offering superior precision products and innovative technologies.

Meyer Burger's offering in systems, production equipment and services along the photovoltaic value chain includes the manufacturing processes for wafers, solar cells, solar modules and solar systems. Meyer Burger provides substantial added value to its customers and clearly differentiates itself from its competitors by focusing on the entire value chain.

The company's comprehensive product portfolio is complemented by a worldwide service network with spare parts, consumables, process know-how, customer support, after-sales services, training and other services. Meyer Burger is represented in Europe, Asia and North America in the respective key markets and has subsidiaries and own service centres in China, Germany, India, Japan, Korea, Malaysia, the Netherlands, Switzerland, Singapore, Taiwan and the USA. The company is also working intensively to develop new markets such as South America, Africa and the Arab region. The registered shares of Meyer Burger Technology Ltd are listed on the SIX Swiss Exchange (Ticker: MBTN).
