

## **Lantech Communications Europe GmbH takes over the exclusive sales channel for German Firewall/UTM series**

Teltow/Klingenberg

With the begin of Apr 2017 Lantech Communications Europe GmbH is taking care for the sales channel of all firewalls / UTM from TELCO TECH GMBH, a German manufacturer of high secure firewalls/UTM. One of the main features is that these firewalls are coming with no backdoor for secret services. The two companies are working together since 10 years and want now to intensify the partnership.

Lantech is a globally operating network technology manufacturer with more than 20 years experience, and its premium active network components together with high secure UTMs is building a perfect team. Lantech offers innovative network technologies for industry and enterprise-customers. In addition, Lantech Communications Europe GmbH, located also in Germany, guarantees customers quick support. The main aim is not to sell one equipment, but to offer customers complete and satisfying solutions.
