

Smaller and Easier

Inexpensive Replacement for HeNe Lasers

LASER COMPONENTS presents PD-LD's inexpensive alternative to HeNe lasers: the SLM-632.

These laser modules fulfill the requirements of high-power illumination with a stabilized wavelength. The SLM-632 module offers up to 50 mW at a wavelength of 632.8 nm and is thus a viable alternative to conventional HeNe lasers – and that in a compact design.

Trade Shows

Optics & Photonics Sweden, Oct, 28 - 29, 2015, Alba Nova University, Stockholm, Sweden
Elmia Subcontractor, Nov, 10 - 13, 2015, Jönköping, Sweden
BiOS 2016, Feb, 13-14, 2016, Moscone Center, San Francisco, USA, **Booth 939**
Photonics West 2016, Feb, 16 - 18, Moscone Center, San Francisco, USA, **Booth 2023**
DCS 2016, Apr, 19 - 21, 2016, Baltimore Convention Center, USA
analytica, May, 10-13, 2016, Messe München, Germany **Booth, A2.500**
Sensor + Test, 10. - 12. Mai 2016, Messe Nürnberg, Germany, **Hall 1, Booth 256**

The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 170 employees worldwide.
