

SCHULER delivered two new SCHULER RACE TRAILERS to the MAN Truck Racing Service Team.

The first RaceTrailer consists of a spacious workshop with fully equipped workbench, assembly areas and tool cabinets for mounting the MAN engines. In addition, the trailer has meeting rooms, engineering workstations and comfortable sleeping rooms for the MAN Service Crew.

The second Race Trailer has several lateral separations, which are equipped with MAN engines and aggregates. This Motorsport Trailer Schuler also serves as technical support for the Truck Grand Prix races in Europe. In the front part of the Schuler Race Trailers have been established for the team and the engineers living and sleeping rooms with kitchen and bathroom to create a fantastic and successful race weekend for the complete team.

The Schuler Fahrzeugbau GmbH team of Ebhausen has put your ideas and technical know-how in these two Schuler Motorsport trailers to offer their customers sporting success and satisfaction. We wish a lot of fun on tour for the MAN Race Team!
