

Installation without any trouble

OEM Laser Modules with a Cable

LASER COMPONENTS' OEM laser modules with diameters of 3.3 mm and 11.5 mm are space efficient and cost effective. Due to their two-pin connection, they are ideally suited for soldering to circuit boards.

For all other applications, these laser modules are now available with 100 mm long cable strands. Use this service to make a connection between the power supply and the point of installation of the modules without any trouble.

The connector cables are available for the following models:

LC-LMD-650-01-01-A-C (4.0 mm diameter, 650 nm, 1 mW)

LC-LMD-650-03-01-A-C (8.0 mm diameter, 650 nm, 1 mW)

LC-LMD-650-05-01-A-C (10.5 mm diameter, focusable, 650 nm, 1 mW)

LC-LMD-650-07-01-A-C (3.3 mm diameter, 650 nm, 1 mW)

LC-LML-635-01-03-A-C (11.5 mm diameter, 635 nm, 3 mW, line laser)

The additional cost of the design with cable strands amounts to just EUR 1.00/unit.

Trade Shows

OFC 2015, Mar, 24-26, 2015, Los Angeles Convention Center, Los Angeles, **Booth 2424**

DSS 2015, Apr 21-23, Baltimore Convention Center, Baltimore, MD, **Booth 1125**

Sensor+Test 2015, May, 19 - 21, 2015, Messe Nürnberg, Germany, **Booth 12.117**

Anga Com 2015, Jun, 09 - 11, 2015, Messe Köln, Germany

LASER. World of Photonics 2015, Jun, 22 - 25, 2015, Messe München, Germany, **Booth B3.303**

The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 170 employees worldwide.
