Invitation to the PMD[vision]® Day Vol.3

November 18, 2010 at the Kempinski Hotel Airport Munich

Siegen, Germany, October 12, 2010 - Same time, same place, new dimensions – the PMD[vision]® Day Vol.3 will again take place at the redesigned Kempinski Hotel Airport Munich on November 18, 2010.

We would like to cordially invite you this year to experience the progress of the stunning 3D technology “live” at the PMD[vision]® Day Vol.3, the biggest Time-of-Flight conference worldwide. Through interesting speeches and talks concerning up-to-date applications and the future roadmap, the PMD[vision]® Day in 2010 will convey a formidable insight about further developments and demonstrate 3D solutions in various areas. Thereby, innovative and mind-blowing applications and solutions will be presented to also enable the interdisciplinary exchange.

Please join us and discover a new dimension in 3D-imaging and exclusively experience the premiere of the new PMD[vision]® Evaboard, which will set new standards in the area of 3D-ToF cameras.

Accompanying Demo Exhibition

The conference is accompanied by an exhibition including the premiere of the new USB-powered PMD[vision]® CamBoard with 40.000 3D-pixels, an automotive test vehicle comprising newest PMD camera innovations as well as additional demos from Texas Instruments, Omek Interactive, University of Kiel, KUKA robotics and many more, which will invite you to interactively experience endless technological opportunities.

Registration

You can register immediately by making use of the fax form or the registration form on www.PMDTec.com. Of course, it's also possible to register via phone +49 271 238538 828 or by sending an e-Mail to s.guenther@PMDTec.com.

If you should require specified information, for instance about our hotel contingent at the Kempinski Hotel Airport Munich, please feel free to contact us at any time.

Booking early pays off with a price advantage of 25% if booking is done before October 14, 2010.

Special PMD[vision] Day Vol. 3 Promotion

Only right now until the PMD[vision]® Day 2010 kicks off: The PMD[vision]® CamCube 3.0 is available at a greatly reduced price. Contact us now!

Please join us and discover a new dimension in 3D-imaging according to our philosophy:

PMD[vision] – discovering new dimensions!

About PMDTechnologies GmbH

PMDTechnologies, a fabless integrated circuit manufacturer, is the worldwide leading 3D CMOS-based digital imaging supplier. The company was founded in 2002 as a spin-off from the Center for Sensor Systems at the University of Siegen. PMDTechnologies GmbH owns about 40 patents worldwide concerning PMD based applications, the PMD principle and its realization. By 2008, the company had sold some 100,000 PMD sensors in various markets and applications. The company is open for collaboration and looks for new application areas through potential partnerships with key players in each relevant application sector. About 50 people are employed by the German based corporation working mainly on the chip design, quality assurance and in the area of pre-series and product development. For more information, please visit <http://www.PMDTec.com>.
