Press release 8/2008

Allrounder with manifold application possibilities - Workstation „WSM“

The ALFALAS® Workstation „WSM“ can be used for marking different plastics, metals and glass. It is ideally suitable for the production of complex laser processes such as deep engraving or glass marking. Once positioned, by the use of X/Y/Z servo axis workpieces of different sizes and forms can be marked with repeated accuracy in one operation process. Automatic attention handling of palletised workpieces. Depending on the installed system component the Workstation “WSM” is maintenance-free. Included in the scope of delivery are the 17” TFT monitor screen, a touchpad keyboard as well as a PC (integrated in the housing) with pre-installed software tp_alfa®. The Workstation will be exhibited from October 14-18, 2008 at the FAKUMA 2008 in Friedrichshafen (Hall A1, Stand 1302). Visit us at the show!
