

Press Release

08.03.2016

SCHURTER Ltd. moves to Aylesbury – Commitment to customer proximity

As of 31st May 2016, SCHURTER Ltd. will share the office premises with its sister company SCHURTER Electronics Ltd. (formerly Danielson UK Ltd.) in Aylesbury.

The consolidation of both UK group companies at one site will result in synergy effects and benefits for SCHURTER and its customers. SCHURTER Ltd. and SCHURTER Electronics Ltd. will remain separate limited companies, though the cooperation will be much closer in the future.

SCHURTER Ltd. as part of the SCHURTER Division Components is your competent consultant and supplier of electronic and electromechanical components in the fields of circuit protection, connectors, switches, EMC products and customized solutions with focus on clean and safe supply of power and ease of use.

SCHURTER Electronics Ltd. became part of the SCHURTER group in 2014, within the Division Input Systems. They are your competent partner in developing, manufacturing and marketing customized input systems, touch screens, touch panels, capacitive sensor keypads, membrane keypads and housing systems in close cooperation with the customers.

Our new office address from 31st May 2016:

SCHURTER Ltd.
29 Stocklake Industrial Estate
Pembroke Road
Aylesbury
Buckinghamshire
HP20 1DB
United Kingdom

Please make sure you use the new company address on all correspondence after the spring break holiday weekend from Tuesday 31st May 2016 onwards. Our company registration number, email addresses, phone numbers, VAT registration details and bank account numbers will all remain unchanged.

Even though our address is changing, our commitment to our customers will not. Our quest for excellence will remain the same. We will strive to deliver the right products and services that are essential to our customer's success. Our team is looking forward to providing the full capabilities of the SCHURTER group to all of our customers.

Company:

SCHURTER is an internationally leading innovator and manufacturer of electric and electronic components. The company focuses on safe power supply and easy-to-use equipment. Its extensive product portfolio comprises standard solutions in the fields of circuit protection, plugs and connectors, EMV products, switches, input systems and electronic manufacturing services. SCHURTER's global network of representative offices ensures reliable delivery and professional customer service. Where standard products are unsuitable, the company develops client-specific solutions.
