## Press Release

### Optotest Corp. is New Partner of LASER COMPONENTS

#### Measurement Devices for Laboratory Applications

LASER COMPONENTS introduces a new partner: the Optotest Corp. who is specialized in the field of fiber-optic connector measurements for assemblers and developers. The products are mainly used in the laboratory - the portfolio includes measurement devices for the measurement of insertion loss and return loss in fiber-optic connectors and components, laser and LED sources in the wavelength range between 630 nm and 1625 nm, power meters with silicon and InGaAs detectors, optical switches, MTP measuring devices, and related software.

Since July 2014, LASER COMPONENTS is Optotest's exclusive distribution partner for Germany, Austria, and the Czech Republic.

#### Trade Shows

**Photonex 2014**, Oct. 15-16, 2014, Ricoh Arena, Coventry, UK, **Booth D20**  
**Vision 2014**, Nov. 04-06, 2014, Messe Stuttgart, Germany, **Booth 1F14**  
**electronica 2014**, Nov. 11-14 2014, Messe München, Germany, **Booth B1-306**

#### The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the United States. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 170 employees worldwide.
