

# LaCie itsaKey

Design by 5.5 Designers  
USB Flash Drive

All of Your Data.  
Now on Your Keyring.

## Transport Your Data Anywhere

Introducing the LaCie itsaKey, a fun new way to store your data in your pocket. The inventive, key-shaped design helps it fit onto a keyring, and into your digital life. Best of all, with its 4GB and 8GB models, you can fit an enormous amount of data in a small flash drive.

## Hi-Speed USB 2.0 Interface

With the universal Hi-Speed USB 2.0 interface, itsaKey can be used with both PC and Macs. Hi-Speed USB 2.0 not only offers universal compatibility and cross-platform convenience, but features a hot-pluggable connection and high-speed transfer rates.

## Superior Reliability and Compatibility

The sturdy and resistant nickel surface treatment of the LaCie itsaKey makes it tough and dependable. Its lightweight and mobile form means it can go anywhere with you, and it's backward compatible with USB 1.1, so you can use it with any computer. In addition, it's Windows ReadyBoost compatible.

## Creative Design

A product of the 5.5 Designers firm, the LaCie itsaKey fits in your pocket, and on your keychain, letting you take your data with you wherever you go. Another new collectible product produced in conjunction with 5.5 Designers, the itsaKey is a usable, functional tool for your home or business, but its fun, ultra-mobile design helps it stand out from the competition. After all, "it's a Key".
