

# Press release

CH-Allschwil, 18 January 2011

**+ + + + + Multi-Contact USA is moving + + + + +**

The relocation of MC USA from Santa Rosa to the neighbouring town of Windsor is scheduled for February 2011. The recently rented 43,000 square-foot building provides a lot more space. It is located right at the Town Green in old Downtown, only a few minutes' drive from the current office. The main reasons for the change are the increasing demand for solar components and the rapidly grown number of staff.

The roof will be equipped with a 205 kilowatt solar power system, which will provide most of Multi-Contact's electrical needs.

An official opening ceremony will take place in spring.

The new address is

Multi-Contact USA  
100 Market Street  
Windsor, CA 95492
