

Press Release # 26/2013 – For immediate release

Futurecom: Data traffic demands and digital security in the spotlight

Orga Systems showcases real-time products to monetize the Digital Life

Paderborn (Germany), 21 October 2013 – Reliable technologies and effective business models to monetize 4G investments, demanding M2M networks and growing customer experiences will be in the spotlight of this year's Futurecom in Rio de Janeiro. From October 21st until October 24th Orga Systems, a leading software vendor for real-time charging and billing solutions, with a strong customer base in Latin America, will take part in the event and showcase reliable and scalable products to reduce OPEX and enhance the customer experience at the same time.

Reducing OPEX and enhancing the customer experience is key

Today Futurecom, Latin America's most admired business hub for the telecommunications industry, starts in Rio de Janeiro in its 15th edition. Solutions and business models to monetize the Digital World will be the focus of conferences, workshops and presentations.

Consequently, Orga Systems will showcase proven products enabling network operators to reduce OPEX and launch new business models effectively. Orga Systems' answer for enhanced revenue generation and operational excellence is its 3-in-1 approach, which stands for "Order Management, Convergent Billing and Customer Care in one". Additionally, integrated policy and charging control solutions for real-time data traffic management, M2M for Telematics and dynamic billing for smart grid investments will be presented.

A real-time showcase on Tuesday, October 22nd, 10:50 am at Auditorium Arpoador, will illustrate how a network operator reduced OPEX and, at the same time, increased its customer loyalty by launching convenient and beneficial Apps, supported by Orga Systems' convergent real-time billing flagship GOLD.

About Orga Systems

For 20+ years, Orga Systems' portfolio of real time products and consulting services has been designed for living in a connected world. Scalable architecture, outstanding performance, lowest rating latency and consequent customer-centricity ensure reliable access any kind of cross vertical NG services for 400+M subscribers in Africa, Americas, Asia and Europe. Worldwide 40+ telecommunications providers, energy suppliers, car manufacturers, automotive and logistics companies rely on Orga Systems and achieve reduced OPEX, real time-to-market, short-termed ROI as well as beneficial access to new value chains and profitable M2M revenue streams.
