Roche in Penzberg

Biotech from Science to Patients

With 5,000 employees, the Penzberg site south of Munich is the fourth largest site in the Roche Group.

The site is one of the biggest biotech centers in Europe and the “Center of Excellence for Therapeutic Proteins” in the Roche Group, and houses Diagnostics and Pharma research, development and production operations under a single roof.

Roche pRED

Pharma Research & Early Development

Roche’s Pharma Research and Early Development organization – Roche pRED – consists of some 2,500 scientists and clinicians with a shared vision of excellence in science, a proud heritage of healthcare innovation and a commitment to deliver new and effective medicines to patients. Our aim is to drive and deliver world-class science through a diversity of therapeutic modalities and profound translational and diagnostics capabilities.

Roche pRED focuses on four therapeutic areas: neuroscience, oncology, infectious diseases and cardiovascular-metabolism at six strategic sites worldwide.

The pRED Oncology unit in Penzberg, Germany is focusing on discoveries and therapeutics targeting tumor cells and the tumor micro-environment.

Call for Abstracts

in Oncology

Novel highly tumor-selective membrane targets for antibody-based cancer therapy

Roche pRED’s Discovery Oncology unit in Penzberg invites authors to submit abstracts which describe their scientific work in the field of tumor selective targets.

Qualified applicants include graduate students and post-doctoral fellows in Europe.

Abstracts will be reviewed by a panel of experts and selected for presentation and awards on the basis of scientific merit. The ten best contributions will be elected and the authors will be invited to the Roche Penzberg campus for oral presentation and poster discussion on November 14th and 15th, 2013.

Thereafter the three winners will be selected and receive an award of 4000 €, 2000 € and 1000 € respectively. The deadline for abstract submission is August 15, 2013. For submission guidelines and additional information, please visit www.roche.com/abstract.

This competition is not open to medical professionals who prescribe, supply or administer medicines or to anyone who recommends, buys or sells medicines.
