

Canto 2010 European Roadshow Underway

Live customer case studies, new Cumulus mobile apps, on-hand experts and more.

**PRESS
RELEASE**

BERLIN, 19 OCT 2010 — Canto® and its European partners launched Canto’s 20th Anniversary Roadshow in late September, with additional events scheduled throughout October and November in Germany, Belgium, the Netherlands, Sweden, Spain and England.

Focusing on the latest in Cumulus Sites, and featuring “best practice” sessions given by key customers, the events promise to offer Canto customers, partners and prospects a first-hand look into why, after two decades, Canto Cumulus remains the most powerful and usable digital asset management system.

“For customers or prospects who want to learn more about Cumulus, or what products and services our partners offer, nothing beats road show face-time,” says Canto CEO Ulrich Knocke. “And I can’t think of any road show we’ve had that featured greater Cumulus expertise than this one.”

Among the partners participating is Vitras, who will be showing its SuduS Cumulus client apps for Android, BlackBerry, iPhone and iPad (iOS) mobile devices.

“Canto road shows are always great for Vitras,” said Vitras managing director, Thomas Mockenhaupt. “But this year is particularly exciting for us because we’re showing SuduS, the first multi-platform mobile app for Cumulus.”

Reservations are free, and space remains available at most events. Those interested in attending should register as soon as possible at the appropriate links below:
