-TECHART Rear Spoiler II for the Porsche Cayman models-

Leonberg, October 2014 – Outer values. The most distinctive part of the TECHART Aerodynamic Program for the current Porsche Cayman models is certainly the TECHART Rear Spoiler II. It underlines the flat outline and short overhangs of the mid-engine sports car, while taking aesthetic and technical requirements into account equally.

The TECHART Rear Spoiler II determines the aerodynamic kit for the Porsche Cayman models visually and provides dynamics and strength to the mid-engine sports car's flat outline. The characteristic wing profile as well as the base console underneath with functional spoiler lip are made of high-quality PURIM. Filigree aluminium uprights with TECHART logotype enable the driver to adapt the wing profile's angle manually. Thus the effective aerodynamic surface can be adjusted to various driving conditions or individual preferences of the driver. In combination with the TECHART Front Spoiler I the TECHART Rear Spoiler II generates ideal handling behaviour. Thereby the ambition for balanced driving dynamics of the total vehicle is consistently taken into account.

Typical TECHART feature: OE quality. As with any TECHART Individualization Program, the refinement specialist from Leonberg also follows these high quality standards without compromises during development, testing and production processes of the TECHART Rear Spoiler II for the Porsche Cayman models.

The TECHART Rear Spoiler II is available for the Porsche Cayman, Cayman S and Cayman GTS (type 981). TÜV homologation included.

Company profile

TECHART Automobildesign GmbH, with its headquarters in the Swabian town of Leonberg, is setting global standards when it comes to the customisation of vehicles from the Porsche brand. Founded in 1987, TECHART has been living this passion for over 25 years under the leadership of the two managing directors Thomas Behringer and Matthias Krauß. The consistent implementation of their ideas and targets has seen the company develop into a global business with over 70 employees and sales in over 30 countries. From aerodynamics and exterior designs, to technical optimisations in all vehicle sectors, to the refinement of interiors by the company's own upholstery shop, the TECHART range covers all Porsche series and models. Approved as an internationally registered vehicle manufacturer, TECHART has established itself as a premium brand for the refinement of Porsche cars worldwide.
