

## **PRESSINFORMATION**

**Chemspec Europe, Munich, 31 May – 1 June 2017**

### **1cc Consultant Nadiia Kaiun presents on June 1, 2017: “Update on Toxic Substance Control Act (TSCA) in USA”**

*Presentation Summary:*

The landscape of chemical legislation worldwide is constantly changing. USA was one of the first countries to make the most important step towards the formulation of national chemicals policy last year.

On June 22, 2016 President Barack Obama signed into law the Frank R. Lautenberg Chemical Safety for the 21st Century Act, introducing important changes to the existing Toxic Substances Control Act (TSCA), also known as TSCA Modernization Act.

Taking into account that TSCA Modernization Act was enforced on the day of its signature, EU exporters and producers of chemicals need to be prepared to take respective action in order to ensure compliance of their products with new requirements. While in Europe one of the central questions focuses on preparation with respect to the last REACH registration deadline in 2018, activities on notification, update of data, etc. might be required from suppliers of certain chemicals to USA.

The presentation will provide an overview of the key elements of TSCA Modernization Act along with actions required from companies exporting chemicals to the USA. Furthermore, the presentation will give an update on the activities of Environmental Protection Agency (EPA) since adoption of the TSCA Modernization Act along with upcoming deadlines and give recommendations on efficient organization of compliance when supplying products to USA.

***The presentation will take place from 15.00 to 15.30 in the Regulatory Services Zone.***

## About 1cc GmbH

1cc GmbH offers consulting and compliance services for all product related topics as REACH, RoHS, Eco-Design, Conflict Minerals and Copyright Levies as well as for WEEE, Batteries and Packaging legislation.

The portfolio of 1cc GmbH encompasses three major services:

- Regulatory Monitoring
- Individual Consulting
- Management & Admin Services

The company offers consulting and services worldwide – in EMEA, North and South America as well as in the Asia-Pacific region. The customers benefit from the longstanding consulting expertise and knowledge concerning compliance issues, the multilingual members of staff and the experience in the fulfilment of national producer obligations.

1cc GmbH has been actively participating in the market since 1996. In 2013, its two predecessor companies K&L GmbH and 1WEEE Services GmbH merged to 1cc GmbH, which is since then located in Holzgerlingen in the Stuttgart area.
