Fiber Laser (pulsed or CW) from Manlight for applications in industrial material processing and test & measurement

Laser 2000 GmbH is pleased to announce an agreement with Manlight for an exclusive representation of their products in Germany and Austria. Manlight lasers are already distributed by Laser 2000 in France, Spain, Portugal and the UK.

For more than a decade Manlight has been a worldwide recognized industrial manufacturer of fiber amplifiers and fiber lasers based in Lannion, France.

Manlight designs and manufactures high power fiber lasers and amplifiers in the range of 1.0 μ m and 1.5 μ m, pulsed or CW, with a lot of option such as polarization maintaining, SLM, OEM format or plug&play turnkey systems to cover telecom, industrial, scientific, medical and LIDAR applications.

Manlight is part of the ALCEN Group.

About Laser 2000

Since 1986 Laser 2000 GmbH is a supplier of high technology in the field of lasers, micromachining equipment, optics, and fiber optic equipment. Our products are designed to meet the challenges of both research and industrial production as well as your actual or future requirements of your applications.

Laser 2000 is headquartered in Munich, Germany and operates local offices in all major business areas of the European market. In order to support your application we deliver top-level service and products and meet the highest standard of quality. With an installed base of thousands of applications around the world, Laser 2000 has shown the ability to provide onsite-support in time.
