### European Identity conference Net-ID 2009, October, 2009 in Berlin, Germany

The fifth conference „Net-ID 2009 – Identity, Trust, Privacy and Security in Europe“, is scheduled to take place on October, 1-2 at the Steigenberger Hotel, Berlin, Germany. The conference provides an overview about the current concepts, methods and experiences in Identity Management that are discussed in government and industry at present. All speeches will be held in English.

The experts in the advisory committee present high-ranking speakers of international origin. They report about the topics of Identity, Trust, Privacy and Security and welcome participants to discuss the different themes.

As it is typical for events of the conference organizer Computas, a comfortable atmosphere shall be created for the participants of the conference, this guarantees also the needful relaxation during the generous breaks. Computas invites participants and referees to the traditional reception and the festive dinner on the evening of the first conference day. With these and many other small details, the organizer assures the personal proximity among participants and the key persons of the particular subject areas.

Detailed information about contents, registration and fees of Net-ID 2008 are available online <http://www.amiando.com/net-id09.html> and by phone on +49-(0)-221-590-1164.

#### About COMPUTAS

COMPUTAS was founded 1969 as an management consultancy in Cologne. From 1981 –1992 COMPUTAS published the „MCR micro-computer report“, the pc-overview with the oldest tradition on the market. Since 1994, COMPUTAS has been concentrating more and more in working as a conference-organizer. Stefanie Geuhs, the daughter of the foundress, has been the CEO of the COMPUTAS Gisela Geuhs GmbH since 1999. Now the successful series of COMPUTAS-Conferences all around IT security, data protection and new technologies regularly offers speakers, authors and participants a forum for knowledge transfer and exchange of ideas. Besides that, COMPUTAS wants to make its expert knowledge about event management available for its customers. COMPUTAS plans, conceives and realizes events for other clients on the highest professional level.
