

## Press release

CH-Allschwil, 4 June 2010

### + + + + + Multi-Contact at the Intersolar 2010 + + + + +

*Multi-Contact again exhibits at the Intersolar Europe, taking place from 9 - 11 June 2010 at the Neue Messe München.*

Stand: C4.582

This year, we are pleased to present you a number of new products from our PV product line, including

- the new generation of PV connectors
- new junction boxes for crystalline and thin-film panels

Further, we are happy to inform you about the manifold possibilities of customized solutions, based on the unique MC Multilam Technology.

As leading manufacturer of photovoltaic connector systems who pioneered in this field, Multi-Contact had again the opportunity to participate in a PV study by the German CleanTech Institute DCTI, receiving the official CleanTech certificate.

The complete press kit is available at our stand A2.405 or from the following contacts:
