Cables are so yesterday

MAKE LIFE EASIER!

Life can be complicated!
Help simplify your life with WiLax.

The new ANSMANN wireless charger removes the hassle of tangled cables and provides a quick and easy way to charge a wide range of mobile devices.

Do things the easy way –
Do it with WiLax!

NO STANDBY POWER CONSUMPTION

Simply place a mobile device on to the wireless charging station and it will recharge itself as though attached to mains electricity, eliminating the need to attach or remove a charging cable directly to the device. WiLax has the best energy efficiency of all wireless chargers, due to the magnetic connection.

ANSMANN Zero Watt technology guarantees that when a mobile device is fully charged no further electricity is used by the charger, saving money and the environment!

ZERO WATT
say goodbye to standby

WiCase

Protective case for connection to the WiLax charger. Available with or without built-in additional battery pack
