TECHART at the Dubai International Motor Show

With more than 2,600 hp to Dubai. TECHART shows its latest individualization options at the Dubai International Motor Show from the 10th to the 14th of November 2011. Equipped with the new TECHART power kits the TECHART GTStreet R based on the Porsche 911 Turbo, the Cayenne-based TECHART MAGNUM and Aerodynamic Kit I as well as the TECHART GrandGT program for the Porsche Panamera Turbo will be presented with a total of impressive 2,650 hp in the exhibition halls at the Persian Gulf.

The largest and most established motoring event in the Middle East, located in the Dubai World Trade Center, attracts every year thousands of visitors of the Arabian and Asian region. TECHART shows its unique individualization program for the sporty SUV and the dynamic sedan in combination with an interior individualization of the highest quality and the new TECHART power kits up to 486 kW (660 hp) respectively 464 kW (630 hp) and in each case a maximum torque of 880 Nm.

Furthermore TECHART shows in a world premiere the all-new power kit TA 097/T3 at the TECHART GTStreet R based on the Porsche 911 Turbo. Equipped with a plus of 174 kW (200 hp) and 230 Nm torque compared to the series model the super sports car fulfils impressive 515 kW (700 hp) and a maximum torque of 880 Nm. The new Aerodynamic Kit I for the Porsche Cayenne Turbo, presented a few weeks ago in Frankfurt for the first time, completes the TECHART performance in Dubai. The power kit TA 058/T2 increases its total output to 486 kW (660 hp) and 880 Nm.

Visit TECHART at the Dubai International Motor Show in hall 1, booth number 158. We are looking forward to your visit.
