

A blurred photograph of a road scene. In the foreground, a glowing yellow wireframe model of a car is shown in motion, with its lines appearing as bright, flowing streaks. In the background, a silver car and a motorcycle are also blurred, suggesting high speed. The background shows a city skyline with various buildings and palm trees under a clear sky.

Annual Press Conference Preliminary Results 2013

www.continental-corporation.com

Milestones Successfully Passed

- › Obtained maneuvering room for billion euro acquisition and made use of it
- › Successfully coped with significant negative foreign exchange rate effects
- › Impressively confirmed operational strength
- › Automotive Group: Again took in orders of €25 billion
- › Tire division: Production started at two new plants

„Work of Value“ Creates „Value“

- › Net income of more than €1.9 billion, or €9.62 per share
- › Dividend proposal: €2,50 per share, payout ratio: 26 percent
- › Reduction in net indebtedness of €1 billion
- › Gearing ratio: 46 percent
- › Total equity strengthened by over a billion Euros
- › Expenses for research and development of nearly €1.9 billion
- › Capital expenditures of approximately €2 billion

Status: as of Dec. 31, 2013

■ Syndicated Loan
■ Bonds

(€ millions)	2012	2013
Gross indebtedness	8,253	6,638
Cash	2,397	2,045
Net indebtedness	5,320	4,289
Available credit lines	2,801	3,833
Total liquidity	5,199	5,878

1) All amounts shown are nominal values.

2) The revolving credit facility (RCF) has a total volume of €3,000 million. Utilization of RCF has to be shown as short term debt according to IFRS although it matures in 2018.

3) Nominal amount \$950 million (exchange rate as at Dec. 31, 2013: 1.3764).

“My car keeps an eye on the complete vehicle surroundings and helps me out in a pinch.”

Continental Mobility Study 2013

Question:
Independent of your wish to use such a system at all, this is also a question of cost. We would therefore like to know what price you would expect for the following three systems – on the assumption of a single new car purchase. Initially automated driving again in a traffic jam. The car drives by itself and you merely observe traffic.
