

LASER COMPONENTS Nordic AB

Sales Activities in the Nordic Countries Expanded

In addition to the German-speaking countries and North America, Scandinavia has become one of the most important markets for LASER COMPONENTS. "We are very pleased with this development and, as a result, decided to open our own sales office responsible for the Nordic countries." said Patrick Paul, general manager at LASER COMPONENTS GmbH. Mikael Winters, who possess excellent market knowledge, will head the new subsidiary as general manager. As a result, the countries of Denmark, Norway, Sweden, and Finland have a regional contact in LASER COMPONENTS Nordic AB located in Sweden. "We see more and more customer-specific product developments in Scandinavia and Finland which require a close consultation with the customers on site." explains Paul the motivation behind the new sales office.

The product portfolio of the new subsidiary will comprise in particular the products developed and manufactured in-house at the LASER COMPONENTS Group. The focus here is on components for IR applications, laser modules, laser optics, pulsed laser diodes, avalanche photodiodes, and fiber optic products.

Trade Shows

Photon 2014, Sept. 01-04, 2014, Imperial College London, UK, **Booth 19**

Strategies in Biophotonics, Sept. 09-11, 2014, Boston Park Plaza Hotel, Boston, USA, **Booth 500**

enova, Sept. 16-18, 2014, Paris expo Porte des Versailles, **Booth C11**

Vision 2014, Nov. 04-06, 2014, Messe Stuttgart, Germany, **Booth 1F14**

electronica 2014, Nov. 11-14 2014, Messe München, Germany, **Booth B1-306**

The Company

LASER COMPONENTS specializes in the development, manufacture, and sale of components and services in the laser and optoelectronics industry. At LASER COMPONENTS, we have been serving customers since 1982 with sales branches in five different countries. We have been producing in house since 1986 with production facilities in Germany, Canada, and the USA. In-house production makes up approximately half of our sales revenue. A family-run business, we have more than 170 employees worldwide.
