June 2012

*sport auto* readers voting and best brands award 2012

—

### TECHART three times on the podium

As in the previous years, TECHART was successful at the readers voting "*the most sportive cars 2012*" as well as in the "*best brands award 2012*" of the german magazine *sport auto*. Both cars, which were part of the voting of more than 12,000 readers, secured a podium position in their respective category. Furthermore the brand TECHART was voted second in exterior refinement and design.

#### TECHART GrandGT most successful individualization program for the Panamera

As in 2011, the TECHART GrandGT based on the Porsche Panamera Turbo finished with an excellent voting in its category "*limousines over 80,000 Euro*" and managed to climb the podium. Again, the TECHART GrandGT program is the most popular individualization program for the Panamera model range among all participants.

#### Great success for the TECHART GTStreet R based on the Porsche 911 Turbo

With more than 20 % of the votes the 700 hp sports car was one of the most popular cars in the voting and reached the second place in the category of "*super sportscars*".

The excellent result of TECHART was rounded off with the second position for the best exterior design in the "*best brands award 2012*". TECHART is the only Porsche refinement brand among the top three of this voting.

TECHART would like to thank all *sport auto* readers for these prestigious awards.
