WINDSOURCING.COM welcomes Vestas Central Europe as new Supply Partner

With immediate effect Vestas Central Europe uses WINDSOURCING.COM as communication and sales channel for current spare part offers.

Visitors and users of the online platform can now search for spare parts and components currently available at Vestas. At the same time Buyers with demand for concrete spare parts or components benefit from the professional procurement know-how of the WINDSOURCING.COM team. They can easily direct their request to the team and receive a concrete offer for the parts needed.

With Vestas joining the platform the WINDSOURCING.COM team welcomes a further big player in the wind energy market. Manufacturers of Wind Energy components as for example Winergy AG, Bosch Rexroth or Moventas already apply the platform as additional sales and communication channel for their product portfolio.

WINDSOURCING.COM was launched in December 2011. The performance in the first half-year has been very positive. The number of advertisers and offers has been rising continuously since December 2011. Interested parties can search for more than 150 offers – currently online - in English and German language for different product groups. Especially with having more than 40 offers for new and spare gear boxes online, WINDSOURCING.COM is the leading research platform for the wind energy market.

About WINDSOURCING.COM

WINDSOURCING.COM is a quality online platform, where wind turbine manufacturers as well as the wind farming and service community have been buying and selling parts and services. WINDSOURCING.COM offers advertisers a flexible, streamlined, easily searchable procurement platform that their potential clients can easily navigate, whether in search of spare parts, or other products. Advertisements can be independently created and updated in real time.

WINDSOURCING.COM offers maximum flexibility for suppliers and servicers alike. The WINDSOURCING.COM team can handle an advertiser's project from start to finish, or, if they so choose, each advertiser may register for the quick and easy log-in feature to maintain their project themselves.

For further information about WINDSOURCING.COM look up www.windsourcing.com or call +49 – 40-98768800.
