How small can depth sensing become?

Discover a new dimension for natural user interfaces:

1 LED. 1 image sensor. That's it.

Sneak Preview: The new PMD[vision]® CamBoard Nano reference design opens up a new dimension for integrating a high resolution 3D depth sensing camera into your NUI application. Visit us @ CES 2012 in Las Vegas and be the first to get a glimpse!

Tuesday, January 10-Friday, January 13, 2012
