RDS Consulting at CeBIT 2013: Change of paradigm in IT requires dynamic services and flexible solutions

IT service provider and consultancy firm from Düsseldorf meets the challenges of cloud computing and mobile devices

*„RDS solutions match with CeBIT's keynote theme 'Shareconomy'.”
Sandra Gehling,
Managing Partner of
RDS Consulting*

RDS Consulting presents Dynamic IT Services at CeBIT 2013 to meet the challenges of a changing IT environment: Mobile devices and shared resources require mobile and flexible services. RDS has continued to develop its portfolio and focuses on mobile platforms, document and knowledge management, based on Microsoft SharePoint, as well as SAP On-Demand solutions. The range of services is complemented by 30 years of experience, profound methodological competence and high service orientation.

Düsseldorf / Hanover, 02/26/2013.– “Shareconomy is the keynote theme at [CeBIT 2013](#),” explains Sandra Gehling, Managing Partner of RDS Consulting. “This exactly matches our solutions and services, which help our clients to create added value.” In more than 30 years the IT consultancy firm from Düsseldorf has continuously adjusted its portfolio to provide dynamic solutions for long term success.

“Cloud computing and mobile devices have fundamentally changed information technology and the way we use it,” adds Mike Stoffels, member of the executive board. “Again, we face a change of paradigm. To support companies at adjusting to the dynamics of the economic world and to prepare them for the workplace of the future, RDS Consulting has concentrated its portfolio on dynamic IT services.”

At CeBIT 2013 RDS Consulting presents high-quality solutions at North Rhine-Westphalia's exhibition stand in Hall 6: These include 'Mobile Solutions' like SAP Afaria and the SAP Mobile Platform as an On-Premise solution or On-Demand service. Their users benefit from RDS' long-time experience. 'SAP On-Demand Solutions' offer affordable but powerful cloud applications for enterprises of all sizes.

RDS also shows the modular solution 'run:documents' for efficient document and knowledge management that runs on Microsoft SharePoint. The 'Mobile Service Desk' (awarded with the 'Innovation Award 2012', category 'Best of IT-

Service') offers capable support during peak times and resource shortages. Intelligent Assessment evaluates and measures IT service management processes and provides guidance. The consulting and IT services company from Düsseldorf completes its range of services with over 30 years of experience, profound methodological competence and a high service orientation.

Long-time experience made RDS Consulting a well-known business partner for enterprises from all kinds of branches of industry. "CeBIT is a good opportunity for us to get in contact with clients and business partners that we usually can't meet in person," notes Anja Günther, Marketing and Communication Manager at RDS Consulting.

From March 5th to 9th you will be able to find the RDS contact persons at exhibition stand F18, which accommodates 14 other exhibitors from Germany's biggest federal state, North Rhine-Westphalia. Visitors and interested parties can receive a free ticket for CeBIT 2013 by registering on the RDS Consulting [website](http://www.rds.de/no_cache/unternehmen/rds-auf-der-cebit-2013.html). http://www.rds.de/no_cache/unternehmen/rds-auf-der-cebit-2013.html
