

Press release

Construction Simulator: Gold Edition and Construction Simulator: Gold Add-on

New game content and extensive Gold Edition announced!

Mönchengladbach, October 12, 2015 – Publisher astragon Entertainment and developer weltenbauer. today officially announce the *Construction Simulator: Gold Edition* and the *Construction Simulator: Gold Add-on*. Virtual builders can look forward to the most extensive construction simulator package yet.

In addition to the full version of the simulation blockbuster *Construction Simulator 2015*, the *Construction Simulator: Gold Edition* contains all the expansions published up to the release of the Gold Edition. Fans can expect an expanded fleet of licensed vehicles from Liebherr, MAN and Still: the mighty Liebherr rotary drilling rig LB 28, the huge Liebherr 150 EC-B 8 Litronic Flattop Crane and the brand-new Liebherr LR 1300 crawler crane. The construction missions tailored specifically to the new machines offer new challenges and plenty of variety, allowing virtual builders to test their skills on impressive skyscraper projects, gigantic wind turbines and bridge building, as requested by the huge fanbase!

The *Construction Simulator: Gold Edition*, available from November, also includes a two-sided poster and a comprehensive range of modding tutorials on DVD. The latter will make it significantly easier for new users to create and integrate their own construction vehicles and missions into the game.

All builders who own the *Construction Simulator 2015* can meanwhile resort to the *Construction Simulator: Gold Add-on*. Just like the Gold Edition, the add-on will contain all four DLCs available up to the release of the Gold Edition, including the Liebherr LR 1300 crawler crane, planned for November.

The *Construction Simulator 2015: Gold Edition* will be available in stores from 11/11/2015 at a price of EUR 24.99 (MSRP). At the same time, the *Construction Simulator: Gold Add-on* will be available as a digital download at a price of EUR 9.99 (MSRP).

About astragon Entertainment GmbH and astragon Sales & Services GmbH

astragon Entertainment GmbH and astragon Sales & Services GmbH emerged in July 2015 as the core of the newly formed astragon group from the two games publishers astragon Software GmbH (founded in 2000) and rondomedia Marketing & Vertriebs GmbH (founded in 1998). The astragon group is today the second largest producer and marketer of computer games in German (CD-ROM/DVD volumes according to GfK Media Control, total annual evaluation 2014).

The focus of our range is casual games and technical simulations for the PC. Adventure games and economy simulations round off our portfolio. With the game series "Big Fish Game", "play+smile" and "Best of Simulations", the astragon group is present in the games sector with three well-known umbrella brands. In addition to sales by astragon Sales & Services GmbH to retail trade partners in German-speaking countries, the products are also marketed internationally under license or by download via astragon Entertainment GmbH. Console titles, mobile games and titles for smartphones and tablets complement our product portfolio. You will find further information at www.astragon-entertainment.de.
