

# Invitation

## Sun shines over German capital city Berlin!

### Governing Mayor, Klaus Wowereit, opens Europe's first series production for micromorph thin film solar modules

The Inventux Technologies AG is one of the biggest start-up companies within the booming solar business worldwide. The Berlin-based company has built-up Europe's first series production for micromorph thin film photovoltaic modules in a record time of seven months. Within just one year 120 high-technology jobs were created in the capital of Germany.

We cordially invite you to find out more during our opening ceremony and the following press conference:

- Location:** Inventux Technologies AG  
Wolfener Strasse 23, 12681 Berlin
- Date:** December 4<sup>th</sup> 2008, 11:00 Uhr
- Attendees:** Mr. Volko Löwenstein, CEO Inventux  
Mr. Christian Plessner, CMO Inventux  
Mr. Klaus Wowereit, Mayor of Berlin  
Mrs. Jeannine Sargent, CEO Oerlikon Solar

We look forward to seeing you.
