

Press Release

trans-o-flex strengthens its top management team

- *Former Hermes CEO assumes responsibility for the partner management as well as strategic projects of the Group*

Weinheim, 2nd October 2015. As of October, Frank Iden, former CEO of the Hermes Logistik Group Germany, will strengthen the management team of trans-o-flex. In his new function for the logistic service provider with its focus on combi-freight and industry-specific solutions (above all for the pharmaceutical and electronic industries), 49-year old Frank Iden will be responsible for two areas: as Managing Director of trans-o-flex Netzwerk Group GmbH, he will assume the responsibility for the co-operation with the trans-o-flex system partners, who operate a total of 28 locations of the trans-o-flex Schnell-Lieferdienst. In addition to this, as Director Strategy and Corporate Development, he will also be responsible for strategic projects of the trans-o-flex Logistics Group.

In his new position, Frank Iden, who has a degree in logistic management, can look back on more than 30 years of experience in the logistics business. Prior to working for Hermes, he held various management positions at primeMail, Deutsche Post, TNT and Interfracht.

About the trans-o-flex Logistics Group:

The success of the Europe-wide operating trans-o-flex Logistic Group is based on three pillars, the services of which can be perfectly combined with each other: 1. trans-o-flex Schnell-Lieferdienst offers a full-coverage network for the efficient and safe transportation of parcels and pallets (combi-freight) all over Germany. This also includes numerous additional services, such as the transportation of hazardous goods without being limited to small quantities. At the same time trans-o-flex, in its capacity as shareholder and partner of the Eurodis network, provides full-coverage combi-freight services in 34 European countries. The company has developed a large number of tailor-made solutions for specific sectors, e.g. for the pharmaceutical and home entertainment / consumer goods industries. 2. With a special network for active temperature control in the temperature ranges of between 2 and 8 °C as well as 15 and 25 °C, trans-o-flex ThermoMed takes over the transportation of temperature-sensitive goods for the pharmaceutical industry. In addition to this, ThermoMed, with its EUROTEMP network, also provides actively temperature-controlled transportation services in 15 countries in Europe. 3. Comprehensive logistic services from storage and picking/packing to value-added services, such as the set-up service for sales displays or electrical appliances, up to customer-specific transport networks are developed and implemented under the umbrella of trans-o-flex Logistik Service. In 2014, annual sales of the Group, which has a workforce of approximately 1,800

employees, amounted to ca. € 500 million. Since June 2008, trans-o-flex has been a 100-% subsidiary of Österreichische Post. For more information, go to www.trans-o-flex.com.
