

CETECOM now offers EMVCo Terminal Contactless Level 1 testing in the US

Summary: As the first laboratory in the United States, our Silicon Valley laboratory in Milpitas, California now offers EMVCo Terminal Contactless level 1 testing.

May 09, 2016 / Milpitas, California – CETECOM, the premiere wireless test and certification lab, is proud to announce that our Silicon Valley laboratory in Milpitas, California is accredited by EMVCo to provide EMVCo Terminal Contactless Level 1 testing and certification services.

With this accreditation, CETECOM's laboratory in the Silicon Valley is the first lab in the US to provide this service and offer our clients in the US a unique testing possibility. This strategic addition increases the comfort for US customers:

- no delays based on time difference issues
- onsite debugging and troubleshooting without intercontinental travel expenses
- dedicated project managers

Having these advantages, CETECOM helps to shorten the product-to-market time while emphasizing a cost-effective testing.

This new accreditation especially enhances CETECOM's SmartCard offering portfolio in the US, which already includes services such as EMVCo, MasterCard, Visa and Amex L1 testing for Cards and Mobiles as well as MasterCard Contactless Reader Level 2.

About CETECOM

For over twenty years, CETECOM has been renowned as an independent test laboratory for mobile phones and other wireless devices. With over 400 employees and test labs in Europe, North America and Asia, CETECOM offers a unique service portfolio servicing the entire range of cellular and consumer wireless products. CETECOM is a leading test and certification lab for smart cards, RFID and NFC applications.

CETECOM provides testing services, consulting and training for wireless technologies: Cellular, Bluetooth, Wi-Fi, NFC, M2M/IOT, carrier acceptance testing and many others. The company also performs a wide range of testing in the areas of mobile software applications, OTA, SAR, FCC, and EMC, field trials, acoustics, batteries and accessories.
