Teraport Modular IT System receives an award from "Initiative Mittelstand", the German initiative for SME companies

_____

Leonberg, Germany, April 20. 2007 – Teraport GmbH, a company of caatoosee ag, was awarded the ITC innovation prize 2007 in the category of advisory services and consulting for its Modular IT System. The award has been made annually by the German initiative for SME companies since 2004 and is aimed at companies that present the most innovative products for SME companies. This year, the selection committee received more than 1,200 applications. "We are delighted about the award and feel it confirms that we have followed the right path with our IT solutions for SME companies, which are summed up by the Teraport Modular IT System", stated Michael Grünschloß, member of the Management Board of caatoosee ag and Managing Director of Teraport GmbH.

Teraport Modular IT System

The Teraport Modular IT System is a flexible, modular system for IT services. With this modular architecture it is possible to present individual service packages which consist of IT service management, consulting, IT operation, outsourcing and computer centre services. Thus individual solutions can be easily implemented for small and large companies. The beneficial focus is on cost transparency and structured, standardised solutions. The applied knowledge of methodology obtained over many years of practical experience of consulting services in IT management is outstanding added value for customers. You can find further information on the Modular IT System on the Teraport website at: http://www.teraport.de.
