PPTminimizer™ 4.0

Compress **PowerPoint** and **Word** files by up to 98%!

Imagine faster data transfer and more effective file storage.

Imagine your minimized files can be edited and published without prior decompression.

Imagine transferring optimized files that fit in your and your recipients' inbox.

Imagine the increased productivity and immediate savings of time and resources.

Imagine this software costs less than $40.00.

balesio imagined all that too and created the new PPTminimizer 4.0 with Word compression in addition to the already legendary PowerPoint optimization. We resolved the nagging problems that every office, every business faces someday. PPTminimizer 4.0 manages storage capacity shortfall, network blockage, the binding of resources and prevents hysterical outbursts.

PPTminimizer 4.0 is compatible with Vista, the latest MS Office versions and of course supports the PPTX format. This program can be fully integrated into Outlook, Word, PowerPoint and Windows Explorer and it comes in English, French, German, Italian, Japanese and Spanish.

A complete version with 12 free compressions is available at
www.PPTminimizer.com/eng/download.php

PPTminimizer 4.0 costs 39.95 USD per user license.

Multi-user prices are available on our site, educational and government agency discounts available on request.
