

Press Release

Leipzig, 17 February 2015

PRISMA TSOs publish the PRISMA evaluation report

Reporting Period: 1 October 2013 – 30 September 2014

On behalf the TSOs, PRISMA published the evaluation report.

In the report, which was jointly created by the involved TSOs and PRISMA, the auctions performed in the period between October 2013 and September 2014 and the trades concluded in the secondary market from January 2014 and September 2014 are analysed.

Moreover, in the report the results of the public consultation, that took place from November 2014, are presented. This public consultation was organized to receive feedback from stakeholders to assess the current functionalities of the PRISMA platform as well as the process to amend the General Terms & Conditions (GTCs) of PRISMA platform.

The evaluation report can be found in the download section of the PRISMA platform at platform.prisma-capacity.eu/center/download.

PRISMA was founded by major European TSOs from Austria, Belgium, Denmark, Germany, France, Italy and the Netherlands with the aim to create a joint European capacity platform.

The European PRISMA Platform, which was launched in April 2013, is the first platform to have implemented the Network Code on Capacity Allocation Mechanisms, the future European market rules for allocating natural gas transport capacity, which will come into force in November 2015.

There are currently 28 European TSOs from Austria, Belgium, Czech Republic, Denmark, France, Germany, Italy, the Netherlands, Portugal, Slovenia and Spain connected to the platform and market transport capacity via PRISMA. 22 TSOs are shareholders of PRISMA.

With its harmonised capacity products and auction mechanisms and its ability to serve a high number of TSO backend systems in accordance with the CAM Network Code, PRISMA is a major step towards an integrated European gas market.
